Two researches are available on Heritage Manager platform: Simple Search and Advanced Search. Here some suggestion about how to ruse these tools.

1. Simple Search

You can make a Simple Search by typing one or more words in the empty box at the top right of the homepage. The system searches the words in all the fields of the resources.

Example: If you type “checked” the system provides as results all the fabrics with a checked pattern.

The screenshot shows the Heritage Manager Simple Search interface. At the top, there are logos for the European Union, CreativeWear, and the Creative Europe Programme. The navigation bar includes 'Home', 'Search results', and 'Upload'. The user is logged in as 'Designer'. The search results section shows 'You found: 24 results'. The search term 'checked' is entered in the search box. The results are displayed in a grid of 10 fabric samples, each with a unique ID: 77.01.174, 1597/GEL/90000, 1580/GENNY/62000, 1591/GAND/20100, 5544/DUTY/87000, and five others. The bottom of the page shows 'My collections' with 'Prato textile Museu' selected and 35 items.

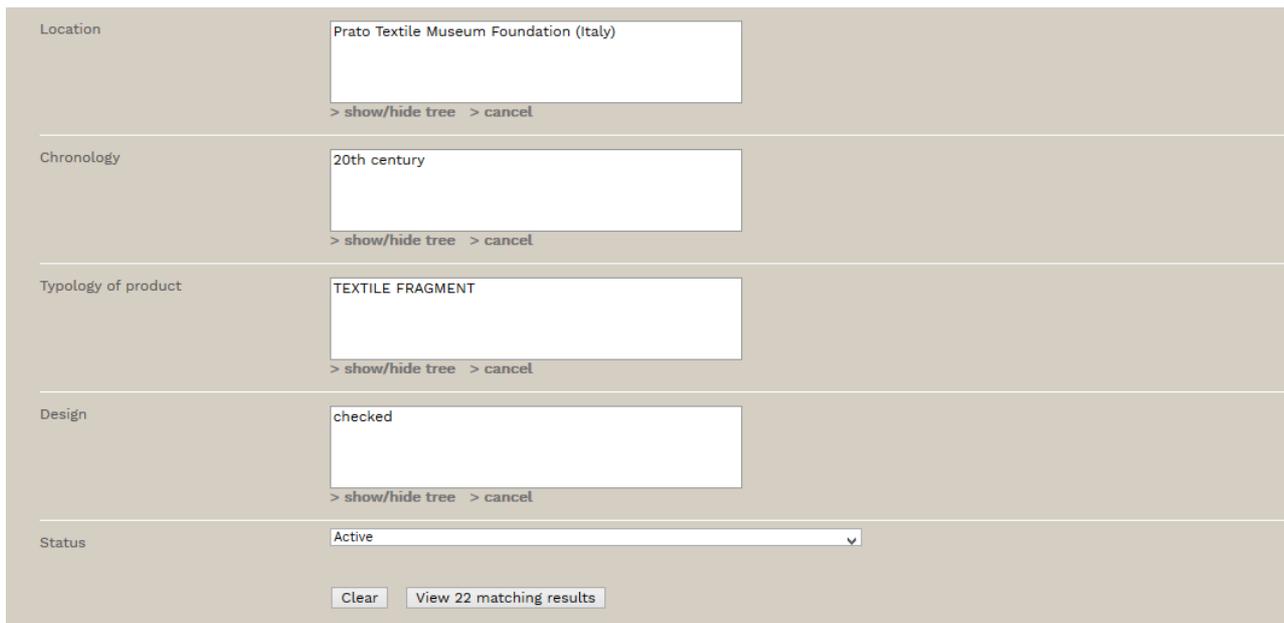

This search also allows you to cross filters typed in the box. If you write “checked” and “blue” the system will provide as results all the “blue and checked” textiles.

The screenshot shows the Heritage Manager Simple Search interface with two search terms: 'checked' and 'blue'. The search results section shows 'You found: 4 results'. The search terms are entered in the search box. The results are displayed in a grid of 4 fabric samples, each with a unique ID: DESIRÉ/1700, 4505/JEDY/82599, 4505/JEDY/84000, and 2513/ BELLA/16100. The bottom of the page shows 'My collections' with 'Prato textile Museu' selected and 35 items.

2. Advanced Search

You can use Advanced Search to be sure that your research is successful and to refine the research. The Advanced Search section searches data in specific fields. You can just flag the words and cross more than one information.

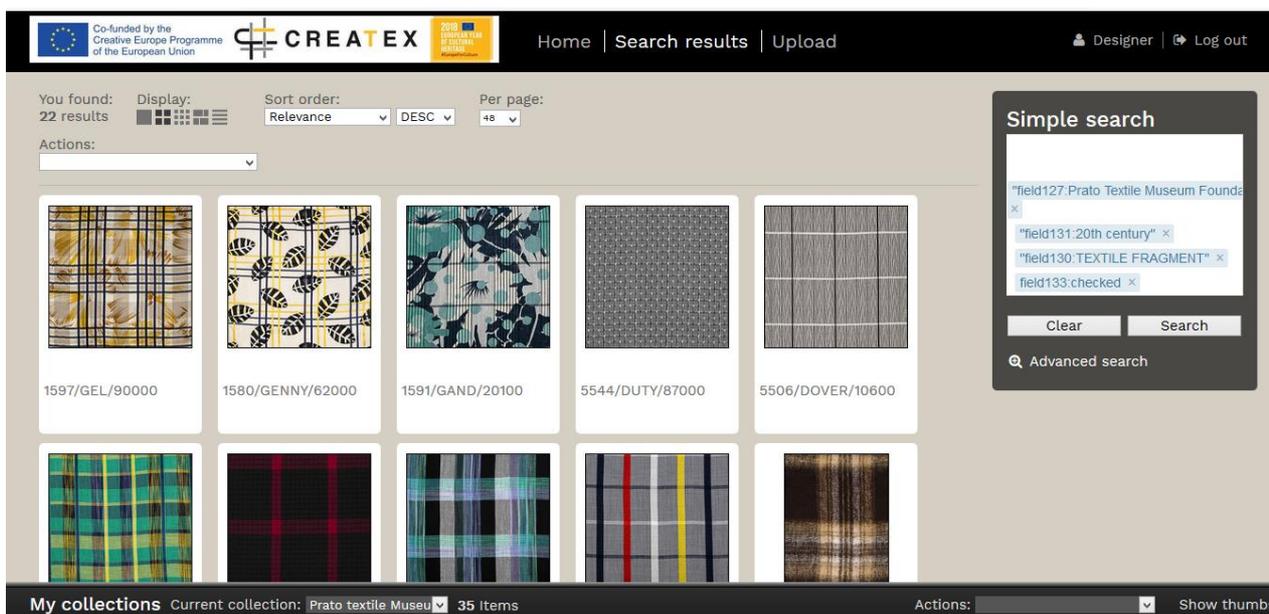

Example:

Location: Prato Textile Museum Foundation (Italy)
 Chronology: 20th century
 Typology of product: TEXTILE FRAGMENT
 Design: checked
 Status: Active

View 22 matching results

With the research above the system shows all the “checked” “textile fragments” of the “20th century” from “Prato Textile Museum Foundation”.
